

Immediate Implant Therapy: From Case Selection to Predictable Clinical Success

2 CE

Immediate

Case Selection

Chase Thompson
DMD

 Oct 22, 2026 | Thursday

 **Radisson Hotel Nashville Airport**
1112 Airport Center Dr, Nashville, TN 37214, USA

COURSE DESCRIPTION

Immediate implant therapy has become an increasingly predictable treatment option when guided by sound biologic and biomechanical principles. This course will explore practical strategies for case selection, treatment planning, and execution of immediate implant procedures to optimize clinical outcomes while minimizing treatment complexity for both clinicians and patients.

Through clinical cases and evidence-based protocols, attendees will gain practical insights into overcoming common challenges and incorporating efficient immediate implant workflows into daily practice.

COURSE OBJECTIVE

By the end of the course, clinicians will be able to:

- Understand biologic and biomechanical principles that influence immediate implant treatment planning.
- Identify appropriate case selection criteria and recognize strategies to overcome common perceived contraindications.
- Evaluate restorative and surgical considerations that contribute to predictable esthetic and functional outcomes.
- Understand the role of customized provisionalization and soft tissue management in immediate implant therapy.
- Learn practical clinical workflows that improve efficiency and enhance the patient experience.
- Explore how immediate implant therapy can be successfully incorporated into everyday clinical practice.

TARGET AUDIENCE

Dentists. No pre-requisites required

COURSE DETAILS

Educational Method	Lecture
Credit Hours	2 CE
AGD Subject Code	690 Implants
Max Participants	24

TUITION

\$99

Cancellation Policy: 100% refund up to 20 days before the course, less than 20 days, tuition fee will be transferable to another course.

05:30pm - 06:00pm Registration

06:00pm - 08:00pm Lecture

08:00pm - 08:30pm Q&A

ABOUT THE SPEAKER

Chase Thompson

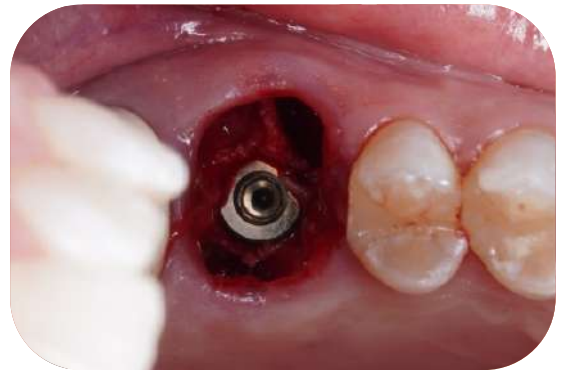

DMD

Dr. Chase Thompson brings a passion for practical clinical excellence in implantology through the perspective of an endodontist.

A graduate of the Arizona School of Dentistry and Oral Health, he served as a dentist in the U.S. Navy before completing specialty endodontic training in Manhattan with the U.S. Department of Veterans Affairs.

As an Ambassador for Zero Bone Loss Concepts and a Key Opinion Leader (KOL) for BlueDiamond Cuff implants, Dr. Thompson lectures frequently on advanced immediate implant techniques, predictable outcomes, and patient-centered success.

Disclosure: The speaker reports no relevant financial or non-financial conflicts of interest related to the content of this course.
