About MINEC America

MegaGen International Network of Education & Clinical Research(MINEC) was founded as a non-profit organization in Korea in 2002.

We provide clinicians with a platform for the exploration of the important questions of WHY, HOW, and WHAT for the future of implant dentistry by connecting them together.

Our comprehensive range of Dental Workshops and Seminars is designed to empower dental professionals with the latest knowledge, techniques, and advancements in the field. Engage in interactive discussions, case studies, and hands-on activities that enhance your learning experience.

Connect with fellow professionals and exchange valuable insights. Join us in this enriching educational experience and elevate your dental practice to new heights.
