

IMMEDIATE IMPLANT PROTOCOLS

WITH PARTIAL EXTRACTION THERAPIES

7/26 - 27 FRI - SAT
2024

TX

Dr. Howard Gluckman

Join professor Howard Gluckman for an immediate for an immersive 2-day course covering immediate implant protocols with Partial Extraction Therapies (PET). This comprehensive hands-on program will uncover the latest techniques and protocols in immediate dental implant treatment. It will refine your skills and expand your treatment capabilities, from facial diagnosis to soft tissue management.

LEARNING OBJECTIVE

The course will cover the full spectrum of evidence - based conventional immediate implant treatment, including the necessary soft tissue surgical skills and the partial extraction therapy protocols. Dr. Gluckman will cover topics that include:

- DSD and the facial diagnosis in implant dentistry
- Surgical and prosthodontics planning with R2Gate software
- Why immediate implants and rules for immediate placement
- Atraumatic extractions and socket preservation techniques
- Immediate implant placement step by step for each anatomical site
- Soft tissue management in immediate implant placement
- Partial extraction therapies
- Immediate implant prosthodontics with protocols for step by step workflow

Dr. Howard Gluckman

BDS, MChD, PhD

Professor Gluckman is the director of the Implant and Aesthetic Academy, which is a post-graduate training facility in South Africa with a passion for sharing knowledge and sharpening the skills of other practitioners. Professor Gluckman is widely regarded as one of the most influential figures in the dental industry.
