

Soft Tissue Management Technique in Implant Dentistry

Dr. Tyler Kim DDS

June 27
2025

📍 MegaGen America
Fair Lawn, NJ

Course Description:

This 3-hour continuing education seminar provides dental professionals with essential clinical insights into achieving and maintaining healthy soft tissue around dental implants. Presented by Dr. Tyler Kim, the course will cover evidence-based protocols for long-term, predictable soft tissue outcomes in implant dentistry.

Course Objectives:

By the end of the course, clinicians will be able to:

- Core principles of periodontics and implantology
- Techniques for soft tissue management and augmentation
- Treatment options for soft tissue deficiencies
- Comparative analysis of treatment modalities: advantages and disadvantages
