**Digital workflow: World's first and Only course to have advanced digital technologies like Pic and Imetric 4D available at a live hands on course, included with digital workflow.**

Is designed to promote exceptional skills to surgeons who wish to acquire superior implant dental techniques. Our faculty have extensive implant experience and are experts in educating you with the latest innovations and ethical models. This intensive three day Live Surgery is limited to twelve clinicians and gives you the opportunity and confidence to practice innovative approaches to bone regeneration, tissue engineering, sinus lift techniques, implant placement, and other surgical procedures. Patients are pre-selected with various levels of surgical complexity to match your clinical skills. All surgeries are performed at the free dental clinic. All participants receive temporary work permits from the Mexican Health Department.

Participants can place between 10 to 20 implants depending on the complexity of the cases and doctors skill level. We hope you will join us in our mission to improve the quality of live to our patients and benefit from this unique opportunity. If you would like more information about the courses we offer, please visit our website at [www.3dimplantinstitute.com](http://www.3dimplantinstitute.com)
